

Product Recall Services

1.800.551.9130

When you need to execute a *national* product recall, *one* call to RGIS will provide your company with fast, accurate and efficient performance.

**BENEFITS OF USING RGIS FOR PRODUCT RECALLS**

- 350+ offices throughout the USA
- Proprietary RM-1™ product identification device
- Same day reporting through secured website
- Ability to schedule 35,000+ experienced employees through a central notification system
- RGIS has surge capabilities with our workforce
- RGIS customer base (16,000+ clients) within the retail, health care, and automotive industries means we have long-term relationships with the same customers as you do.

*“We didn’t know if we were going to survive our product recall difficulties; it really caught us off guard. Then we remembered RGIS. One simple phone call to RGIS helped turned a crisis with possible tragic consequences into a manageable situation that allowed us to continue to serve our customers.”*

**MISSION STATEMENT:**

RGIS will provide our customers with efficient, timely and accurate recall and return services. We will use our technology and superior customer service to provide consumers confidence in our customer’s products.
